

SAFETY DATA SHEET

Preparation Date: April 5, 2017

Revision Date: September 14, 2017

Revision Number: 1

1. IDENTIFICATION

PRODUCT IDENTIFIER

Product Name: OMNIFILM-CTL II

EMERGENCY TELEPHONE NUMBER

Canutec (613) 996-6666

OTHER MEANS OF IDENTIFICATION

Chemical Name: Not Applicable

Synonyms: Not Applicable

RECOMMENDED USE OF CHEMICAL

Cooling Tower – Inhibitor

RESTRICTIONS ON USE

Not Applicable

SUPPLIER IDENTIFICATION

Keytech Water Management

33 McIntyre Drive, Kitchener, ON N2R 1E4

1-800-265-2772

2. HAZARDS IDENTIFICATION

Classification:

Physical Hazards: Not Classified

Health Hazards: Skin Irritation – 2
Serious Eye Damage – 1
Skin Sensitizer – 1
Specific Target Organ Toxicity – Repeat Exposure – 2

Environmental Hazards: Hazardous to the Aquatic Environment

Label Elements

Signal Words: DANGER

Hazard Statements

Physical Hazards: None identified

Health Hazards: H315: Causes skin irritation
H317: May cause an allergic skin reaction.
H318: Causes serious eye damage.
H373: May cause damage to organs through prolonged or repeated exposure.

Environmental Hazards: H412: Harmful to aquatic life with long lasting effects.

Precautionary Statements

Prevention: P260: Do not breathe mist/vapours/spray.
P264: Wash face, hands and any exposed skin thoroughly after handling.
P272: Contaminated work clothing should not be allowed out of the workplace.
P280: Wear protective gloves/protective clothing/eye protection/face protection.

Response: P302+ P352: IF ON SKIN: Wash with plenty of soap and water.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes.
Remove contact lenses if present and easy to do.
Continue rinsing.
P332+P313: If skin irritation occurs: Get medical advice/attention.
P362+P364: Take off contaminated clothing and wash it before reuse.
P310: Immediately call a POISON CENTER or doctor/physician.
P321: Specific treatment (see first aid information on this label).

Storage: See storage section of SDS.

Disposal: P501: Dispose of contents/container in accordance with local regulations.

Hazards not otherwise classified (HNOC): None identified

3. COMPOSITION / INFORMATION ON INGREDIENTS

Hazardous Ingredients	CAS Number	% by Weight
Derivative of acrylic acid copolymer	Proprietary	3.8-4.2
2-phosphonobutane-1,2,4-tricarboxylic acid	37971-36-1	1.9-2.1
Phosphonic acid derivative	Proprietary	0.9-2.0
Derivative of acrylic acid polymer	Proprietary	0.9-2.0
Sodium benzotriazole	15217-42-2	1.1-1.2
Sodium hydroxide	1310-73-2	1.0-1.1

Any components not listed are not hazardous according to WHMIS classification.

4. FIRST AID MEASURES

General Advice: Show this safety data sheet to the doctor in attendance.

Protection of First-aiders: Use personal protective equipment as per Section 8. Avoid contact with skin, eyes, clothing.

Eye Contact: Flush with water for a minimum of 15 minutes, holding eyelids open. Remove contact lenses if present and easy to do. Continue rinsing. If irritation persists, repeat flushing. Obtain medical attention.

Skin Contact: Immediately remove contaminated clothing and shoes and wash before reuse. Rinse and wash skin thoroughly with soap and water for at least 15 minutes. If irritation persists after initial washing, obtain medical attention.

Inhalation: Move to fresh air and keep at rest in a position comfortable for breathing. Give artificial respiration ONLY if breathing has stopped. If breathing is difficult, trained personnel should administer oxygen. Obtain medical attention if the person feels unwell after exposure.

Ingestion: Do not induce vomiting. Give 1 to 2 glasses of water to dilute the material if the victim is alert and not convulsing. Never give anything by mouth to an unconscious person. If spontaneous vomiting occurs, have victim lean forward with head down to avoid breathing in of vomitus. Rinse mouth and administer more water. Obtain medical attention immediately.

Most important symptoms and effects, both acute and delayed: Irritation, burning, nausea.

Notes to Physician: Treat symptomatically.

5. FIRE – FIGHTING MEASURES

Suitable Extinguishing Media: Use appropriate media for surrounding fire.

Hazardous Combustion Products: Oxides of carbon, phosphorus, sodium, sulphur, nitrogen.

Protective Equipment and Precautions for Firefighters: Wear NIOSH approved self-contained breathing apparatus and full protective clothing in case of fire. Remove storage containers from fire zone if possible. Use water to cool containers. Control run-off water by containing and keeping it out of sewers and watercourses.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Avoid all contact with skin, eyes, or clothing. Avoid breathing (vapor, mist, spray).

Protective Equipment: Wear protective equipment/clothing as per Section 8.

Emergency Procedures: Restrict access to area until the spill has been cleaned up.

Environmental Precautions: Prevent from reaching drains, sewer or waterway. Product should not be released into environment.

Methods for Cleaning up: Block potential routes to water systems. Pump into appropriate containers or absorb with an inert material such as sand. Rinse residue with water. Dispose of waste and residues in accordance with local authority requirements.

7. HANDLING AND STORAGE

Precautions for Safe Handling: Wear protective equipment/clothing as per Section 8. Avoid contact with eyes, skin and clothing. Do not swallow. Avoid breathing mist/vapours/spray. Wash face, hands and any exposed skin thoroughly after handling. Do not eat, drink or smoke when using this product. Wash face, hands and any exposed skin thoroughly after handling.

Conditions for Safe Storage: Store in a cool, dry, well ventilated location away from incompatible materials. Protect from freezing. Keep in original container. Keep container tightly closed.

Incompatible Materials: Alkalies, oxidizing agents, strong reducing agents, nitrites, chemically active metals.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Exposure Guidelines

Chemical Name	ACGIH TLV	OSHA PEL	NIOSH IDLH
Sodium hydroxide	2 mg/m ³ ceiling	2 mg/m ³	10 mg/m ³

Appropriate Engineering Controls

Engineering Controls: Ensure eye wash stations and safety showers (or deluge hose) are proximal to the workstation location. Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne levels below recommended exposure limits.

Personal Protective Equipment

Eye and Face Protection: Wear safety glasses with side shields or chemical goggles. Use face shield if splashing is anticipated.

Skin and Body Protection: Wear chemical resistant gloves. Rubber, neoprene or PVC should be impervious under conditions for use. Skin contact should be prevented through the use of suitable protective clothing selected for conditions of use and exposure potential.

Respiratory Protection: A NIOSH-approved respirator with organic vapor filter should be used in environments without proper ventilation, where exposure guideline levels may be exceeded or if misting may occur.

General Hygiene Considerations: Handle in accordance with good industrial hygiene and safety practice.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Clear, amber

Physical State: Liquid

Odour: N/D

Odour Threshold: N/D

<u>Property</u>	<u>Values</u>	<u>Remarks • Method</u>
pH	3.4-4.4	
Melting / Freezing Point	N/D	
Boiling Point / Range	N/D	
Flash Point	None	not flammable
Evaporation Rate	N/AP	
Flammability (solid, gas)	N/AP	
Flammability Limits in Air	N/AP	
Upper flammability limit	N/AP	
Lower flammability limit	N/AP	
Vapour Pressure	N/AP	
Vapour Density	N/AP	
Specific Gravity	1.050-1.070	
Water Solubility	Complete	
Solubility in other solvents	N/D	
Partition coefficient: n-octanol/water	N/D	
Auto-Ignition Temp (°C)	N/D	
Decomposition Temperature	N/D	
Viscosity, Kinematic	N/D	
Viscosity, Dynamic	N/D	

10. STABILITY AND REACTIVITY

Reactivity: Nonreactive under normal conditions.

Chemical Stability: Stable under normal conditions.

Possible Hazardous Reactions: None under normal processing.

Conditions to Avoid: Incompatible materials, excessive heat.

Incompatible Materials: Alkalis, oxidizing agents, strong reducing agents, nitrites, chemically active metals.

Hazardous Decomposition Products: Oxides of carbon, phosphorus, sodium, sulphur, nitrogen.

11. TOXICOLOGICAL INFORMATION

Component Information

Chemical Name	LD50 Oral	LD50 Dermal	LC50 Inhalation
Derivative of acrylic acid copolymer	5000 mg/kg rat	2000 mg/kg rabbit	N/AV
2-phosphonobutane-1,2,4-tricarboxylic acid	2910 mg/kg rat	>6310 mg/kg rabbit	N/AV
Sodium tolyltriazole	640 mg/kg rat	>2000 mg/kg rabbit	N/AV
Sodium hydroxide	2400 mg/kg rat	1350 mg/kg rabbit	N/AV

Symptoms of Acute or Chronic Exposure and Delayed Effects

Ingestion: Harmful if swallowed. Danger of serious damage to health by prolonged exposure if swallowed.

Inhalation: No specific hazards known.

Eye Damage / Irritation: May cause eye irritation. Risk of serious damage to eyes. Prolonged contact may cause burns.

Skin Corrosion / Irritation: May cause skin irritation. Prolonged contact may contact burns.

Sensitization: May cause sensitization by skin contact.

Reproductive Effects: None identified.

Mutagenic Effects: None identified.

Specific Target Organ Toxicity – Single Exposure: None identified.

Specific Target Organ Toxicity – Repeated Exposure: Danger of serious damage to health by prolonged exposure if swallowed.

Aspiration Hazard: None identified.

Carcinogenicity: Not listed as a carcinogen. Not expected to have mutagenic or reproductively toxic effects on humans.

12. ECOLOGICAL INFORMATION

Ecotoxicity

Chemical Name	Freshwater Fish Data	Aquatic Invertebrate Data	Freshwater Algae Data	Microorganism Data
Sodium hydroxide	LC50 45.4 mg/L 96 h Rainbow trout	N/AV	N/AV	N/AV
Derivative of acrylic acid copolymer	LC50 >958 mg/L 96 h	EC50 >466 mg/L 48 h Daphnia magna	IC50 51 mg/L 72 h Marine water algae	N/AV
Sodium tolyltriazole	LC50 25 mg/L 96 h S. gairdneri	LC50 280 mg/L Daphnia magna	EC50 26.2 mg/L 72 h S.capricornutum	N/AV
2-phosphonobutane-1,2,4-tricarboxylic acid	LC50 160 mg/L 96 h Rainbow trout	EC50 297 mg/L 48 h Daphnia magna	N/AV	N/AV

Persistence and Degradability: Not established.

Bioaccumulation Potential: Not established.

Mobility in Soil: Not established.

Other Adverse Effects: None identified.

13. DISPOSAL CONSIDERATIONS

Waste Disposal Method: Dispose of waste and residues in accordance with local authority requirements.

Contaminated Packaging: Dispose of empty containers as unused product. Product or containers must not be disposed with household garbage.

14. TRANSPORT INFORMATION

UN #: UN 3265
UN Proper Shipping Name: CORROSIVE LIQUID, ACIDIC, ORGANIC, N.O.S. (derivative of acrylic acid copolymer)
Transport Hazard Class: 8
Packing Group: III

Special Precautions: No additional precautions required.

Environmental Hazards: None identified.

15. REGULATORY INFORMATION

No additional regulatory information applicable.

16. OTHER INFORMATION

Preparation Date: April 5, 2017

Revision Date: September 14, 2017

Revision Number: 1

Prepared by Keytech Water Management, 1-800-265-2772

SDSs available at: sds@keytech.ca, keytechservice.com

CAS: Chemical Abstracts Service (division of the American Chemical Society)

ACGIH: American Conference of Governmental industrial Hygienists

TLV: Threshold Limit Value – the reasonable level to which a worker may be repeated exposed over a working lifetime without adverse health effects

TWA: Time Weighted Average – a TLV based on an 8 hr work day or 40 hr work week

STEL: Short Term Exposure Limit – a TLV based on a 15 minute average

Ceiling – a TLV that should not be exceeded during any part of the work experience

OSHA: Occupational Safety and Health Administration (USA)

PEL: Permissible Exposure Limit – a TLV established by OSHA for exposure of an employee to a substance/physical agent

NIOSH: National Institute for Occupation Health and Safety

IDLH: Immediately Dangerous to Life or Health

CFR: Code of Federal Regulations (USA)

LD50: Lethal Dose – the amount of a material, given all at once, causing the death of 50% of a group of test animals.

LC50: Lethal Concentration – the concentration of a material in the air or water which causes the death of 50% of a group of test animals in a set period of time (usually 4 hours).

IC50: Inhibitory Concentration – measures the effectiveness of a substance in inhibiting a specific biological function.

N/AP = Not Applicable

N/AV = Not Available

N/D = Not Determined
